SUMMARY

As a frontend developer, I am focus on creating the visual and interactive parts of websites and apps. This involves using HTML for structure, CSS for styling, and JavaScript for adding functionality. Frameworks like React, help streamline this process. Your goal is to ensure interfaces are user-friendly, look good on all devices, and work smoothly."

RELEVANT COURSE WORK

- Introduction to computer Programing
- Data structure & Algorithm
- Database Management System
- Operating System
- Web Development
- Software Engineering
- Object oriented programing

PROFESSIONAL EXPERIENCE

Naresh IT
